

BURNED IN A TRAP.

Thirty-Five Men Lost Lives in Shanty Near Altoona This Morning.

Laborers Fought to Enter While Others Struggled To Get Out of the House.

In a Short Time the Tinder Box House Was in Ruins--Fifteen Badly Injured--Wives and Relatives of the Dead Laborers Are Nearly all in Far off Italy.

Altoona, Pa., Nov. 21.—Thirty-five Italian laborers were burned to death in their shanty, one mile west of Lilley, 18 miles west of Altoona, this morning. Fifteen Italians were seriously, some fatally burned and are now in the hospital.*

The men were employed by McGinn and Sims, railroad contractors, and were employed on the big Pennsylvania railroad improvements in and around Lilley. For their employees McGinn and Sims had built several long, one-story frame buildings. From one hundred to two hundred laborers were housed in each of them. Tiers of bunks were constructed along the walls for the men to sleep in. This morning early fire broke out in one of the buildings, where 150 men were housed. It evidently started from an overheated stove. The flames spread rapidly and communicated to the straw ticks in the bunks, which were like adding

coal to a furnace. There being but one entrance to the shanty and few windows, the men were caught like rats in a trap. The alarm of fire was quickly raised and the Italians nearest the door hastened outside.

When the laborers who escaped saw the building was doomed they tried to get back to secure their belongings, yesterday having been pay day. Many of them had their money locked in their trunks. At the lone exit a desperate battle took place. The men inside fought to get out, the flames creeping closer and closer to them. They had no thought of saving anything from the building but their lives. The men outside struggled to get in to save what they could. The little door was choked with a frantic mass of humanity.

In an incredibly short time the tinder box shanty was smoldering ruins. At the door, piled in a ghastly mass, were 14 bodies of men, who had fought

a losing fight for their lives. Behind them were other bodies, the palsied hands of which clutched in a death grip the iron handles of satchels, or the iron bands of small trunks. As the fire burned out the ruins were searched. Twenty bodies have already been taken out. They were laid side by side on the ground nearby to be identified by their relatives and friends.

The heart-rending scenes which usually characterize such incidents did not take effect for the reason that most of the wives and children of the dead men are back in Italy. The fifteen burned Italians were treated by Dr. F. C. Kress, of Lilley, and afterwards removed to the hospital at Johnstown. The men who met death at the door of the shanty had been suffocated. The others farther back had been burned. Some of the bodies were found burned to a crisp. There does not seem to be any one to blame for the awful catastrophe.

RESOLUTION

To Invite Cuba to Become a State in the Union is Offered by Senator Newlands.

Washington, Nov. 21.—Senator Newlands, author of the resolution annexing Hawaii, has introduced a joint resolution inviting Cuba to become a state of the United States upon terms of equality with the states of the Union. It provides that Porto Rico shall become a county or province of Cuba; that all present officers of Cuba shall retain their positions until their terms expire; that the \$35,000,000 bonds of Cuba shall become the bonds of the State of Cuba, with interest reduced to 3 per cent and 2 per cent, to be applied to a sinking fund; that the present rural guard of Cuba shall be incorporated into the army of the United States; that the money in the Cuban treasury shall become the money of the state of Cuba.

The resolution closes with the following declaration:

"That the foregoing resolution is inspired not by a desire to annex forcibly, or to assert sovereignty over the island of Cuba, or to exercise any form of compulsion; but solely by a regard for the interest of the two countries and a conviction that the interest of the states composing the Federal Union and Cuba are identical, and that they can be administered by union under one form of government in which all shall be represented on equal terms and to be governed by equal and undiscriminating laws ensuring freedom of trade and equality of right and privilege."

BY PANAMA

The Treaty Must be Ratified Before Its Submission to the Senate.

Washington, D. C., Nov. 21.—President Roosevelt and Secretary Hay have decided that there shall be no more repetition of the experience incident to the failure of Colombia to ratify the Hay-Herran treaty, and the new canal treaty with the Republic of Panama will not be submitted to the Senate of the United States for ratification until after it has received the endorsement of the government of Panama.

The treaty is now in the hands of Panama's commissioners and will be sent at once by them to Panama for ratification by the authorities of the provisional government. The Junta is now the only governmental authority in Panama able to do this. The expectation is that the treaty will be ratified quickly and without attempt to obtain changes or amendments.

When the treaty is returned with the approval of Panama it will be submitted to the Senate of the United States. It is believed by Secretary Hay that the treaty will be backed by Panama's approval soon after the assembling of Congress in regular session and the document will be submitted to that body without delay.

The commission from Panama, accompanied by the Panama minister, M. Philippe Bunau Varilla, was received at the State department by Secretary Hay.

Dr. Amador informed the Secretary that the commissioners had carefully inspected the Hay-Bunau-Varilla treaty and desired to take this opportunity of expressing their entire satisfaction with its terms.

CONTEST OVER \$100,000 ESTATE

Urbana, O., Nov. 21.—There will likely be a contest in the settlement of the estate of the late Dr. James Mosgrove, who left an estate estimated to be worth about \$100,000. There was no will, and the estate is to be settled by an administrator.

The father of Dr. Mosgrove, who was Dr. Adam Mosgrove, was married twice, the children all being by the first wife. The second wife had considerable property, which the elder Mosgrove had managed, and partly put in his own name, and at his death willed it to Dr. James Mosgrove, his son.

The second wife of the elder Mosgrove was Miss Fannie Foley, of Clark county, and after the death of her husband she employed the late Colonel Young to look after her interests.

A compromise was finally effected, whereby Dr. Mosgrove was to hold the property willed to him by his father during his life and at his death the portion belonging to his stepmother, Mrs. Foley-Mosgrove, was to revert back to her heirs and relatives.

Among the Foley heirs who will likely claim a portion of the estate are Mrs. Washington Ward, of Springfield; Mrs. Robert Todd, of Columbus, and Mrs. Anna Green, of Boston.

REYES

Is on His Way to Washington

Armed Hosts Will March to the Isthmus

TO REGAIN LOST PROVINCES IF THE MISSION FAILS.

REYES THINKS WAR IS NEAR

And Believes South American Governments Will Help Check Advance of United States.

Colon, Nov. 21.—After much difficulty the Associated Press correspondent has succeeded in interviewing General Reyes, who came to the isthmus on a peace mission representing the Colombian government. General Reyes said:

"The day I left Bogota, which was on the 11th inst., United States Minister Beaufre and Secretary of Legation Snyder were well, though a little anxious. I assured my minister that he was in no danger. At the time I left Mr. Beaufre was preparing to go down the river.

"On Friday, Admiral Coghlan informed me officially that the United States would prevent the landing of Colombian troops on any part of the isthmus. I promised Admiral Coghlan that Colombia would not take such action until I reached Washington, whither I am proceeding via Port Limon and New Orleans.

"I also told Admiral Coghlan that if my efforts at Washington failed to bring about some arrangement concerning the present situation on the isthmus satisfactory to Colombia, the United States would have to fight the entire Colombian people, and that it would be a second Boer war.

"I am going to Washington for the purpose of doing my utmost to arrange affairs amicably.

"Colombia is desperate. I doubt if the Washington government or President Roosevelt, for whom I have the highest respect, realizes the seriousness of establishing this precedent.

"The large German colony in Rio Grande do Sul, Brazil, is declared to be inclining to a revolutionary movement for independence, which the success of Panama will stimulate.

"The government of Colombia is receiving the sympathy of all South America, which is fearful of further American territorial aggrandizement in this direction.

"I may propose when in Washington a plan contemplating the re-entrance of Panama into the Colombian Union and the moving of the Colombian capital to Panama City. I am sure that this idea will receive the support of all Colombians.

"I do not just know what my course of action will be, but I am going to Washington in the interests of Colombia and of civilization."

Asked whether Colombian troops could reach the isthmus by land, General Reyes answered:

"Yes, I can get 100,000 men, build roads, and, if it were not for the Americans, could subdue the isthmus in a fortnight. I would rather die for the honor and in the defense of the integrity of my country than sit with hands folded and see her lose the isthmus. I will do all I can at Washington to effect a diplomatic arrangement, if such be possible. I know the sentiments of my countrymen."

General Reyes sent a cablegram to Bogota advising his government that it was impossible to reach any agreement with the government of Panama, and hence that Colombia's relations with that government were severed, and that he, accompanied by the other commissioners, was proceeding to Washington to fulfill his mission.

Questioned as to the rumor that the departments of Cauca and Antioquia were anxious to join the Republic of Panama, General Reyes said:

"The report of dissatisfaction in those departments is not only untrue, but I am able to say to you that the entire republic is united in its determination to restore the isthmus to the Union."

General Reyes is today the strongest and most intelligent figure in the republic of Colombia. He is very popular, and it is believed that the course of the government of Colombia in the isthmian matter will be very greatly influenced by whatever attitude General Reyes may decide to take.

As General Reyes walked along the dock in company with the Panama commissioner a Panamanian boatman approached him and, saluting, asked for orders. The general laughingly turned to the Panama commissioner, and then said to the boatman: "You should take orders from the white men now."

NOT GUILTY

This is Verdict Rendered in the Miller Case and Johns Case at Cincinnati.

Cincinnati, O., Nov. 21.—D. V. Miller of Terre Haute, and Joseph M. Johns of Rockville, Ind., were last night acquitted on the charge of conspiracy to extort a bribe from John J. Ryan, made by the postoffice department.

The verdict of not guilty was received by the crowd with demonstrations that could not be suppressed by the court officers.

Considering the charge to the jury, the verdict was a surprise, as the general opinion was that the jury would be unable to agree.

Postoffice officials admitted their disappointment at the verdict when it was rendered, but say that this case was not like any of the other postal cases that are pending.

CHARGES MADE AGAINST WOOD

Rathbone Says the General Accepted Money from a Gambling House in Havana.

Washington, Nov. 21.—Summons issued by the Senate military affairs committee were served on Ernst Conant of the New York law firm of Page & Conant, citing him to appear before the committee today in connection with the investigation of charges against Brigadier General Leonard Wood, made in an effort to prevent his confirmation as major general.

Mr. Conant will be expected to give testimony as to the character of the Jai Alai, the alleged gambling establishment which General Wood is charged with having given a ten year concession to operate in Havana.

Mr. Conant went to Cuba as an attaché of the evacuation commission, and while there he acted as the legal adviser of General Ludlow in command of the department of Havana.

Later he served General Wood in the same capacity, and it is declared he is competent to give some inside facts relating to the manner in which the concession to the Jai Alai was obtained.

Major Rathbone filed specific written charges with the committee.

He alleged that General Wood while military governor of Cuba, had accepted money from the Jai Alai, which was said, a gambling concern, and asserted that he had made a personal friend and boon companion of an ex-convict.

RICHARD OLNEY, DEMOCRATIC PRESIDENTIAL POSSIBILITY.

CAPS

Discovered Just in Time.

Effort Made to Blow Up Street Cars

DYNAMITE FASTENED TO THE TRACKS IN CHICAGO.

A SATISFACTORY SETTLEMENT

Of the Strike May Result Today—Agencies Now at Work to That End.

Chicago, Nov. 21.—Three dynamite caps were found fastened to the tracks of the Chicago city railway at 77th and Vincennes road today just before the first cars were sent out on the Wentworth and Indiana avenue lines under guard of an army of policemen. The caps were each three quarters of an inch in diameter, were fastened firmly to the track by strands of fine wire. The discovery came just as the various mediating agencies began their efforts of the day toward a peaceful settlement of the strike.

Chicago, Nov. 21.—Only two points prevent a peaceable adjustment of the Chicago city railroad strike and the indications are that these obstacles will be finally overcome and that a settlement will be reached today. A virtual cessation of hostilities has been declared by both sides while the present peace negotiations are in progress, and as all the interested parties appear to

FRANCIS O'NEIL, CHIEF OF POLICE AT CHICAGO.

Chief O'Neil, with an army of police made it possible for the street railroads to move their cars.

He making every effort to bring the struggle to an end, there seems a likelihood that all differences will be modified to such a degree that arbitration will follow.

Mr. Darrow submitted the company's proposals to the union, after which he said that the strikers had accepted the proposals of the company with immaterial modifications.

In their turn the men submitted a proposal on the routing of cars. This is the matter that will come before the board of directors of the company today for consideration.

Four of the company's trunk lines were kept open for traffic, the cars being run under police protection. Since the inception of the strike last Thursday no attempt has been made to operate cars at night. None of the cross-town lines has been opened for use.

Washington, Nov. 21.—In his first annual report as chief of staff of the army, General S. M. B. Young makes an urgent appeal for the re-establishment of the canteen feature of the post exchange. Pen. Report.

Columbus, Nov. 21.—The annual report of the Ohio penitentiary was filed with Governor Nash today. It shows a continuance of the decline of population of the prison. This decrease is due largely to the fact that all young criminals are sent to the reformatory. The average number of inmates during the year was 1,557, or 132 less than last year. The earnings dropped from \$243,159 in 1929 to \$225,585 in 1930, while the expenditures amounted to \$361,857.60, an increase of \$5,900 over the previous year. The report says that practically the whole institution is out of date and that but two things are really serviceable, the hospital and the death chair.

FOR CHURCH OR CALLING.

This trim church or calling suit is designed in brown velvet with white dots. The skirt is shirred about the hips in deep V's and the lapped scalloped front seam ends in a circular foot section, outlined with piping of white cloth. The vest is in waistcoat effect in ermine. The sleeves are shirred on the inside arms, the wrist trills are of batiste, edged with fine white lace. The jacket is not removable, making the model a dress complete.

BEWARE OF PIE AND SINKERS

Hurry-Up Lunches Pave the Way For Years of Suffering.

Doctors have preached against it, Britishers have written scathing articles about it, wives and mothers have crusaded against it—and yet the deadly "hurry-up lunch" marches on.

The fascinating doughnut, the alluring "foudry" pie, washed down by gulps of cold milk or hot coffee or iced water, continue on their deadly way to the stomachs of thousands and thousands of America's hustling, capable, world-conquering business men.

In all probability we will be unable to wipe out the "hurry-up lunch" for many years to come, but we can at least combat the evils wrought by the practice. Our recipe is simple, economical and effective. Buy a package of Rexall Dyspepsia Tablets; carry them in your pocket; and as the last gulp of milk chases the last chunk of refractory pie down your esophagus, swallow one tablet.

Rexall Dyspepsia Tablets prevent and cure stomach trouble by supplying the one element, the absence of which in the gastric juices, causes indigestion and dyspepsia. They enable the stomach to digest all kinds of food and to quickly convert it into rich, nourishing blood.

Our position is not merely to sell you dyspepsia tablets, but to sell you a cure for your dyspepsia and indigestion.

If Rexall Dyspepsia Tablets do not effect this cure, we give you back your money. That shows how much confidence we have in this new remedy.

Price 25 cents per large package. Sold only at our store or by mail.

Everybody will be heartily welcome to both services.

The bishop will be glad to see all communicants at the earlier service, 7:30 a. m., especially those who wish to receive the holy communion, and also the members of the class to be confirmed tomorrow.

CREDIT DUE TO SOMEBODY.

Where Did We Get the Right to Borrow in Mathematics?

"Where did we get the right to borrow in mathematics?" asked a man who takes an interest in curious things. "We always pay back—a thing we sometimes fail to do in other relationships in life—but where did we get the right to borrow in the first instance? Take a simple illustration in subtraction: The teacher will tell the pupil to subtract 4,322 from 6,421. We put the problem down after this fashion:

6,421
4,322
2,099

Here we have the problem and the result. We know that we cannot say 'two from one.' So we borrow one and say 'two from eleven,' and we get the result 'nine.' We pay back promptly, for instead of saying 'two from two' leaves nothing,' we say 'three from twelve leaves nine.' But by what authority do we say this? When did we discover that this method would give us correct mathematical results? That's what I would like to know. Here we have one of the problems which the doctrine of evolution may deal with. I suppose some old fellow in the long ago found that it was necessary to devise a method of meeting this mathematical emergency, so he hit upon the idea of borrowing from one row of figures and paying back to the next, and so met and conquered a very serious difficulty. The idea originated with some one, and to that some one we owe something. Mathematics would be a meaningless science without this convenient plan, just as other things would be useless but for the clever inventions of men who have gone before. There is the thing, for instance, which stands for nothing, the naught, that round symbol 0. It has a history. We know how they calculated before it came into existence. But I will not tell you about it now. I was speaking about the borrowing habit in mathematics, and that is enough to think about at one time. Do you know how and when it originated?"—New Orleans Times-Democrat.

KEYS OF THE BASTILLE.

These Historic Relics of Old Paris, Owned by an American.

The keys which "locked the great gates of the Bastille at the time of its fall have been in America for a number of years. For nearly a century they remained in the possession of the family of the Frenchman who took them from the famous prison, though they have recently come into the possession of an Englishman living in Quebec.

When the mob stormed the prison on July 14, 1789, a Parisian, Carrier Lechastel, is said to have been the first to rush over the drawbridge as it fell. It was he, at any rate, who overtook a fleeing jailer and took the keys from him. The mob immediately stuck the keys on the end of a spike, and an immense throng paraded with them through the streets. They were considered one of the most valuable trophies of the revolution.

Lechastel kept the keys, and they remained in his family until 1859, when a descendant of the family emigrated to America, taking them with him. Eventually the keys were sold to John Hamilton of St. Louis, who kept them for twenty-five years, exhibiting them from time to time, when they were sold to a Canadian.

One of the keys was obtained in France by General Lafayette and was presented by him to George Washington a year or two before his death. It hangs in the mansion at Mount Vernon and has been seen by thousands of visitors there.

The keys at present are very old and rusty. The largest of them is twelve inches long and is quite heavy. The smallest is of fine workmanship, the socket being shaped like the ace of clubs, and is supposed to have belonged to the treasure rooms. This and another key measure six inches in length, while the other two are about ten inches and much heavier.—Washington Times.

Really Antique.

An excellent plaster of paris cast may be seen in one of the Egyptian galleries of the British museum of the famous sycamore statuette known as the "Sheikh-el-Beled," or "Village Sheikh." The original dates from 3500 B. C. and is still in perfect condition, although it is the oldest known specimen of wood carving. It represents an overseer of the workmen engaged in building the pyramids close to Sakkarah, where it was discovered.—London News.

“For the Sake of My Little Children.”

Prof. Hoff's Cure for Consumption Saved the Life of this Mother.

American Bureau, Bendiner & Schlesinger, Third Avenue and 10th Street, N. Y.

Gentlemen—I have been taking your medicine now since last October, and I would like to tell you what it has done for me. Last Spring I caught a heavy cold, and not paying much attention to it, of course it became worse. I had a terrible, hacking cough all Summer. Then I was taken with chills and fever, which pulled me down further. I got so thin my eyes sank back in my head, and my heart beat so fast I could stand no noise or excitement. I got so weak that I could not walk across the room. I could not even dress my little children. My cough became worse.

I was being treated by our family doctor, and I asked him if my lungs were affected. He told me no. A week after that I was taken with a terrible hemorrhage of the lungs. Then I gave up entirely. There was no use doctoring any more. I got a good deal of rest, and at evening I had another eight hemorrhage. All the next day I spit blood, and I had terrible pains across my chest and between my shoulders. I could not eat anything. That same day I saw your announcement in the paper, and my husband asked me if I would try the Hoff Cure. I told him that I would try anything for the sake of my little children. So I began taking the remedy.

Before the first bottle was empty I began to show signs of improvement. My cough left me. The pains in my chest and lungs are gone. I do not feel any soreness in my lungs at all now, and I can eat anything that is set before me. I do all my own housework, and I am very happy to say that I feel today as if I had never been sick at all. This is a great surprise to all my friends. They all thought there was no hope for me.

I can start out and walk two or three miles now and not get tired, and I could not do that last Fall.

I have told a number of people about the Hoff Cure, and have given away all the books and papers you sent me. Enclosed you will find one dollar for another bottle of Prof. Hoff's Cure for Consumption. Please send it to me as soon as you can, for I do not want to miss taking it.

This will be four bottles I have taken, and here is my testimonial, my name and address. You can use them when and where you will, if it will only bring the medicine to the attention of those who so sorely need it. Respectfully yours,

MRS. MAGGIE WILSON, George's Road, New Brunswick, N. J.

The foregoing letter from Mrs. Wilson was published in a New York newspaper, and a few weeks later another letter came from her, as follows:

Dear Sirs—I am receiving many letters from different parts of the country. People do not seem to think my experience is true until they receive a letter directly from me.

I have answered them all so far, and have praised the Professor Hoff Cure to them highly, also telling them that what they read is perfectly true.

It is putting me under a great expense to do this. If you will be kind enough to clear me of all expense I will try and spare time to tell them each a few lines to tell them all what the medicine has done for me.

MRS. MAGGIE WILSON, George's Road, New Brunswick, N. J.

The American Bureau will gladly defray all the expenses of making these answers, but if the inquirers will write immediately to the American Bureau they will receive the treatise written by Prof. Hoff, which will answer every question scientifically and completely.

Professor Hoff desires his cure to be in the hands of every sufferer. It is humanity's medicine. The prescription is compounded in accordance with Prof. Hoff's directions and sent out by the American Bureau at Third Avenue and 10th Street, New York, at \$1.00 per bottle. For greater convenience the remedy may be had at the same price from the well and favorably known firm mentioned below.

The triangular trade mark of the American Bureau of Professor Hoff's Cure must be on the label, and this is the guarantee to the purchaser that it is the exact prescription used by Prof. Hoff at Vienna.

A 64-page book, containing complete descriptive treatise on the Professor Hoff Cure, and accurate reports of several hundred cases, is mailed free on application or may be obtained by calling at these well known druggists.

IMPORTANT.—Other Hoff cures not bearing this triangular trade mark are not the authentic preparation authorized by the American Bureau. You can obtain the genuine Hoff Cure at most drug stores. The great body of honorable druggists do not substitute anything for selling something just as good, that makes more profit to them. The genuine Hoff Cure can always be procured of the well-known druggists.

MR. ROSSEL

WOULD BE MAYOR IN CASE OF DEATH OR INCAPACITY.

Of Mayor A. J. Crilly Says the Law—List of the City Officers is Given Below.

The question came up in the city clerk's office Saturday afternoon as to who would succeed to office as mayor in case of death or incapacity of Mayor A. J. Crilly. A number of persons had given opinions and others were volunteered during the conversation. Several have said during the past few days that the president of the board of public service would be mayor, but according to law, the president of the city council would become mayor, and the president pro tem. of the council would become president, and next in succession to the mayorality.

Mayor Crilly, his many friends are glad to know, is in excellent health. He has no intention of quitting the country or of going over the silent river for years. The question did not arise through any fear that Mayor Crilly will not serve his term of office, but came up merely in a speculative way. JUST A MINUTE WITH THE SPORTS

The fact that "Hurry Up" Yost remains at Ann Arbor another year at least is joy in large lumps for the supporters of Michigan.

If the plans of some Chicago promoters are carried out, an amateur billiard championship will be held in the western metropolis in January.

Although the west does not want to lose Yost, it might be a good experiment to send him to Harvard next season, just to see what he could do with that hopeless aggregation.

Opposition having developed to the long baseball seasons, it is expected that a move will be made at the annual meeting in December to shorten the National and American league seasons to 130 games.

This is the season when phenoms are hatched about the hot-air circuits.

Fitzsimmons made several species of simians of Al Limerick, and now Jack Monroe has been matched to fight the giant. If this is dope it is a good way to get a line on Monroe's ability.

The usual amount of hot air concerning Fitzsimmons and Gardner is emanating from California via the press agent route.

The A. A. U. has indorsed the Olympic games scheduled for St. Louis during the exposition.

It is now settled that Ralph Bloomer is out of the game for the rest of the year. His injury during the Princeton game was more serious than at first thought.

Jimmy Briggs put a stop to the reascension of "Kid" Broad's aspirations.

Tommy Ryan and "Philadelphia" Jack O'Brien have been offered \$5,000 for a 20-round go before a San Francisco club. Both have expressed their willingness.

John A. Drake, the Chicago horse owner, announces that he will stop plunging on the ponies, "because it attracts too much attention."

J. A. Prior will serve a hot coon roast to his friends tonight.

Senator Deitrich, Republican, from the State of Nebraska, (the State of William J. Bryan), has been indicted by a federal grand jury for bribery. The specific charge is that he sold the appointment of Postmaster The Democratic newspapers are opportunely calling public attention to the fact that this man Deitrich is one of those pure Republican statesmen of the State of Nebraska who have so persistently traduced William J. Bryan.

ROOSEVELT MUST TAKE THE RESPONSIBILITY.

Secretary Root has evidently determined that he shall not be held responsible for the vagaries of President Roosevelt.

The secretary has caused the statement to be given out that no order has been issued to any troops to proceed to the isthmus and that none is in contemplation. The secretary of war is reported to be very much annoyed by the published statement that troops are to be sent to bulwark the fake republic to which President Roosevelt has served in the capacity of both father and midwife. The war department is anxious that the country should understand that it will not approve a proposal to send soldiers of the United States upon an unconstitutional mission.

Secretary Root may thwart the faculty of Mr. Roosevelt, but it will probably be for only a short time. The president's panamaism is not going to be permanently cured by any mere subordinate. When the executive strenuously reaches the point of adequate frenzy the troops of the United States will be ordered to the fake republic with the same effervescence which ordered American naval commanders to prevent a sovereign state from suppressing rebellion on its own soil.

Nor will the dispatch of American soldiers to violate the rights of Colombia at the isthmus be any more revolutionary or unconstitutional than the use to which the sportive executive has put American marines.

DEMOCRATIC GATHERING

At Columbus January 8, 1904—Reunion of Representative Democrats from All the Counties

Columbus, O., Nov. 21.—A practical movement is on foot in this city for a reunion here of representative Democrats from all the counties in the state on Jackson's day, the eighth of January next. The project has been glaringly misrepresented in Republican papers, which have charged that the party is to be "reorganized," mesmerized or paralyzed upon this occasion. The truth is, that nothing like reorganization is contemplated. The affair will simply represent the desire of a few well-known Democrats in this county to have the brethren from all parts of the state meet in Columbus as the most accessible place and celebrate the anniversary of the battle of New Orleans, as Democrats have been wont to do since that event enrolled the name of Jackson on the pages of American history and cleared the way for his entrance to the White House. The Republican press of Ohio seems now anxious to make such a celebration as this appear as a great crime, or, at least, as a stupendous blunder.

THE MODERN ALCHEMIST MIXING OIL AND WATER

It is not likely that they will succeed. The celebration will take the form of a banquet and will be open to all Democrats, of whatever shade of opinion, who desire to come. The formal invitations are not yet out, but will be mailed within the next week. Following their issue a general invitation will be extended to the Democracy of the state. It is not yet within the bounds of good taste to give out the names of the distinguished Democrats who will sign the invitations and become sponsors for the event, but it may be stated positively, that their names, when published, will at once be accepted as a guarantee of the non-factional character of the gathering and proof that its objects will be such as to commend themselves to all Democrats.

Brandriff, J. W. Adams and N. C. Sherrburne were appointed a committee to have prepared oyster sandwiches for the next meeting to be held on Thanksgiving eve, Wednesday, Nov. 25, at which time a good attendance is expected as past experience has proved that Woodmen have a weakness for oyster sandwiches and in addition they will be entertained by the adoption of a good class of candidates. The question of continuing in the present quarters was brought before the camp and Consul Young adjourned the meeting to A. P. U. hall on Main street on a tour of inspection, where the camp was again called to order and a vote taken which resulted in the trustees being instructed to enter into a lease with the A. P. U. for the new hall. Cedar Camp has met in the Red Men's hall for the past five years and the change will no doubt be a surprise to many.

There unto they will 'the veil be lifted and the pressure removed.' Therefore, let all Arabs from far and near assemble at our Temple in the oasis of Newark, on the above date, when much will be revealed unto them."

THE REASON WHY.

Because it supplies the strength to the body to throw off the cold and prevent pneumonia and consumption, is why physicians in-dorse Father John's Medicine for all throat and lung troubles. Its nourishing qualities furnish vitality by which the system is able to ward off attacks of colds—it helps the stomach to assimilate food and forces nutrition into the blood. Not a patent medicine, and free from weakening stimulants, alcohol or nerve-destroying and poisonous drugs. We are able to guarantee it because it has never failed to do all that is claimed for it, during the 50 years of its success, since it was prescribed for the late Rev. Father John O'Brien of Lowell, Mass., by whom it was recommended and from whom it derived its name.

CAMP FIRE

ENJOYED BY CITIZEN LEGION RIFLE CORPS.

Object of the Organization Explained. Members Numbering 43 at Target Practice.

A new and important organization held its first camp fire council Thursday night at Kuster's. The supper was just right, the attendance large and the affair all that could be desired.

The Citizen Legion Rifle Corps is the organized riflemen of the Citizen Legion. Its plan is to create and maintain a corps of skilled riflemen, organized into small efficient team groups distributed over the United States. These groups to form units of one large and completely organized body of loyal, patriotic, intelligent men, taught in time of peace to use the military rifle, and drilled and disciplined in the simple but effective school of the team group, which will make the organization a national force of so great a value that every service rendered for its advancement will be an act of patriotism.

Its objects are the defence of the National government against all armed forces of strength too great to be repulsed by the Regular Army, National Guard, and first line volunteers.

To strengthen the prestige of the United States by the known fact that lack of the general government and its first lines of defense stands a great body of skilled and well organized riflemen able and ready to defeat an invading army.

The team group, composed of from 15 to 27 men, commanded by an ensign (similar to a third lieutenant) who is permanent commander of his group, and the rifle team of his group, is an important feature of this organization.

It is easy to see that in case of invasion the enemy could quickly be met by an army of skilled rifle teams so trained that they would almost at once become an efficient army.

A number of regular army officers have given this plan their full approval and it meets the approval of intelligent citizens.

The rifle corps has forty-three members and is steadily growing. No organization in Newark has a finer membership. The membership is selected and invited.

Two team groups are already organized. The officers are: Major, F. G. Steele; Adjutant, Rev. J. C. Schindler; Quartermaster, W. S. Anderson; Chaplain, Rev. L. S. Boyce; Commander of Section, (two team groups) Second Lieutenant, J. V. Hilliard; Ensign of Group 1, L. J. Wise; Ensign of Group 2, F. H. King.

An armory range of 50 feet has been built in the armory of Co. G, and work at properly reduced military targets and ammunition was commenced Sept. 24. Over 500 recorded records of 25 shots each have been made and this does not represent half the work done. More than five hundred shots have been fired. Many of the best riflemen in Newark are members.

The Citizen Legion of which the rifle corps is a most important part, is a patriotic, civic and military order, free from party politics or sectarian religion. It proposes to do practical patriotic things. It is a friend to the army, navy, National guard and to other patriotic orders.

The following resolutions were unanimously adopted Thursday night and strong committees appointed to have the various matters in charge:

First, That the Citizen Legion be incorporated according to the laws of Ohio.

That this organization use its best efforts to induce the incoming Ohio Legislature to make sufficient appropriation to put the rifle range on the state camp grounds near Newark, in first class condition with a thousand yard range and enough targets to accommodate the National Rifle Association in conducting its annual meet.

Resolved, Whereas there is a bill before Congress, or one in preparation, authorizing the War Department to issue modern military rifles and an annual supply of ammunition to responsible parties upon application with sufficient bond, and on further condition that a report be made showing proper use of said ammunition, and I Whereas, The main object of the Cit-

Resolved, That we instruct Major F. G. Steele and Adjutant J. C. The work of organizing team groups in other places will be taken up in a few weeks. There should be no trouble in making this order national. The country needs for its future safety just such an organization. The Citizen Legion with its rifle corps is the result of years of thought and labor by Major F. G. Steele of Newark.

The membership is enthusiastic and resolved to carry the work forward with energy.

Died Friday Night at the Home of His Sister, Mrs. E. W. Brown on Cedar Street.

Mr. James S. James, son of the late James D. and Ann James, died Friday night at 10:30 at the residence of Rev. E. W. Brown, No. 15 Cedar street. The deceased was well known in this community some years ago. He was brought home from Columbus about five weeks ago in failing health, and finally the end came from sheer exhaustion. He leaves to mourn his loss three sisters, Mrs. E. W. Brown, Miss Margaret James and Mrs. E. K. Evans. He will be buried in the family lot in Cedar Hill cemetery Monday at 1 p. m.

HIGH CLASS DRUGGISTS AND — OTHERS.

The better class of druggists, everywhere, are men of scientific attainments and high integrity, who devote their lives to the welfare of their fellow men in supplying the best of remedies and purvey medicinal agents of known value, in accordance with physicians' prescriptions and scientific formula. Druggists of the better class manufacture many excellent remedies, but always under original or official names and they never sell false brands, or imitation medicines. They are the men to deal with when in need of anything in their line, which usually includes all standard remedies and corresponding adjuncts of a first-class pharmacy and the finest and best of toilet articles and preparations and many useful accessories and remedial appliances. The earning of a fair living, with the satisfaction which arises from a knowledge of the benefits conferred upon their patrons and assistance to the medical profession, is usually their greatest reward for long years of study and many hours of daily toil. They all know that Syrup of Figs is an excellent laxative remedy and that it gives universal satisfaction, and therefore they are selling many millions of bottles annually to the well informed purchasers of the choicest remedies, and they always take pleasure in handing out the genuine article bearing the full name of the Company—California Fig Syrup Co.—printed on the front of every package. They know that in cases of colds and headaches attended by biliousness and constipation and of weakness or torpidity of the liver and bowels, arising from irregular habits, indigestion, or over-eating, that there is no other remedy so pleasant, prompt and beneficial in its effects as Syrup of Figs, and they are glad to sell it because it gives universal satisfaction.

Owing to the excellence of Syrup of Figs, the universal satisfaction which it gives and the immense demand for it, imitations have been made, tried and condemned, but there are individual druggists to be found, here and there, who do not maintain the dignity and principles of the profession and whose greed gets the better of their judgment, and who do not hesitate to recommend and try to sell the imitations in order to make a larger profit. Such preparations sometimes have the name—"Syrup of Figs"—or "Fig Syrup"—and of some piratical concern, or fictitious fig syrup company, printed on the package, but they never have the full name of the Company—California Fig Syrup Co.—printed on the front of the package. The imitations should be rejected because they are injurious to the system. In order to sell the imitations they find it necessary to resort to misrepresentation or deception, and whenever a dealer passes off on a customer a preparation under the name of "Syrup of Figs" or "Fig Syrup," which does not bear the full name of the California Fig Syrup Co. printed on the front of the package, he is attempting to deceive and mislead the patron who has been so unfortunate as to enter his establishment, whether it be large or small, for if the dealer resorts to misrepresentation and deception in one case he will do so with other medicinal agents, and in the filling of physicians' prescriptions, and should be avoided by every one who values health and happiness. Knowing that the great majority of druggists are reliable, we supply the immense demand, in original packages only, at the regular price of fifty cents per bottle, but as exceptions exist it is necessary to inform the public of the facts, in order that all may decline or return any imitation which may be sold to them. If it does not bear the full name of the Company—California Fig Syrup Co.—printed on the front of every package, do not hesitate to return the article and to demand the return of your money, and in future go to one of the better class of druggists who will sell you what you wish and the best of everything in his line at reasonable prices.

BECOMING A MOTHER

Is an ordeal which all women approach with indescribable fear, for nothing compares with the pain and horror of child-birth. The thought of the suffering and danger in store for her, robs the expectant mother of all pleasant anticipations of the coming event, and casts over her a shadow of gloom which cannot be shaken off. Thousands of women have found that the use of Mother's Friend during pregnancy robs confinement of all pain and danger, and insures safety to life of mother and child. This scientific liniment is a god-send to all women at the time of their most critical trial. Not only does Mother's Friend carry women safely through the perils of child-birth, but its use gently prepares the system for the coming event, prevents "morning sickness," and other discomforts of this period.

stories high, exclusive of basement, stone throughout and plastered within and without. The first and second stories are auditoriums. Each auditorium is 35 by 65 feet. Each one contains eight pulpits, the west for the Melchisedic priesthood, the east for the Aaronic priesthood. To the top of the spire is 120 feet. The windows are Gothic in style and 12 feet high. There are 3500 lights of glass in the building. The temple cornerstones were laid July 23, 1833. The building was completed in 1836, and dedicated March 27, 1836. From 1836, when Jos. Smith and his followers emigrated to Missouri because of fraudulent transactions, until 1850 the temple was used as a public building, and was much desecrated and mutilated by relic hunters who cut off and carried away many of the carvings. In 1853, the present body came into possession of the building again through litigation in the courts at Palmyra. The little hand-carved Mahogany contribution box that was used on the day of the dedication, March 27, 1836, still rests on top of the pulpits, and is used today.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Bitters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not been sick a day since. LECTURE ON THE MODERN PRODIGAL SON AT Y. M. C. A.

Walter B. Ball Will Sing at the Afternoon Service—Travels of Paul. Sunday Program.

One hundred beautiful stereopticon views—photographs from life, will be shown by the Rev. Francis A. Strough in his famous illustrated sermon on "The Modern Prodigal Son" at the Y. M. C. A. Sunday afternoon. Preceding the address a number of beautiful illustrated hymns will be sung, and Mr. Walter Bentley Ball, who leaves next week for a concert tour through the eastern states, will sing several solos. Taylor Hall will most surely be crowded Sunday for this exceptionally strong service.

Class in "Travels of Paul." Forty boys were present in the Y. M. C. A. parlor at 2 o'clock last Sunday to begin the study of the "Travels of Paul." Tomorrow a small map will be given each boy, and a large map and the blackboard will be used to add interest to the study.

The boys should report promptly at 2 o'clock. All who wish can then remain for the lecture in Taylor Hall at 3 o'clock.

At Congregational Church. A fourth lecture has been added to the series already announced for the Rev. Francis A. Strough. Sunday evening he will give his lecture on "Heroism and Sacrifice" at the Plymouth Congregational church. This lecture will be free and everybody is invited. A silver collection will be taken to assist in defraying the expenses. Like all of Mr. Strough's lectures, this one is illustrated with a large number of magnificently colored stereopticon views.

ACCEPTANCE

OF THE WEHRLE ADDITION BY THE CITY.

Reasons Given by Mayor For Vetoing the Ordinance. Twice—Question Not Yet Settled.

There is some misapprehension as to the cause of the hitch in the acceptance of the new Wehrle addition, two ordinances having been passed and submitted at different times to Mayor Cullis, who returned them with his veto.

The first ordinance was vetoed and then instead of passing this over the mayor's veto, another was introduced and passed, which met the same fate at the mayor's hands, who accompanied the return of the ordinance with some remarks that were caustically sarcastic.

The matter stands like this at present, and on the next regular meeting night the ordinance will again come up, and it is doubtful if its friends can muster enough votes to pass it over the mayor's veto.

Now the entire question hinges on whether or not the Wehrle people have carried out their terms of a contract with the city contained in the following:

"Resolved, by the council of the city of Newark, O., That, in consideration of the promise and agreement on the part of the board of trade of the city of Newark, O. W. W. Wehrle and Samuel Van Voorhis, to expend the sum of \$5,000, under the direction of the proper city authorities in grading the streets and alleys in the 'Wehrle addition' (proposed) to the city of Newark, O., within one year from this date, and at such times as directed by said city; said addition to be accepted by this council as soon as improvements shall have been completed, said acceptance to be conditioned upon the faithful and prompt compliance with the terms hereof on the part of the board of trade, Wehrle and Van Voorhis; that pending such improvement, the proprietors of said addition may sell said lots by number, the same as though said addition was finally accepted."

Mayor Cullis states that the reason he vetoed the ordinance accepting the addition is that the terms have not been carried out by the Wehrle company in that the city officials have been ignored and whatever improvements have been made have been done without consultation with the engineer or other city officer. In this he is supported by the members of the board of public service and the city engineer.

Those in favor of accepting the addition have been informed that the improvements made are in all cases in accordance with the contract, and that more than \$5,000 have been spent on them.

More information will be at hand that will determine the council's action next regular meeting night, when the question comes up again.

MISS MANNERING'S BIG SUCCESS

MISS MARY MANNERING.

Mary Manning is this season repeating her success of last season in Clyde Fitch's play, "The Stubbornness of Geraldine." This play was a big hit both in New York and on the road last season and this season is repeating its former success. Miss Manning is English, having been born in London in 1876. She went on the stage when she was 15, and soon established an English reputation. In 1895 Daniel Frohman brought her to the United States to play leading roles in his Lyceum company. In 1891 she began starring under the management of Frank McKee in "Janice Meredith." In private life she is the wife of James K. Hackett, whom she married while they were playing opposite parts at the Lyceum.

NARROW

ESCAPE FROM DEATH HAD MR. JOSEPH WHARTON

Barrel of Shotgun Burst as He Was Preparing to Fire at a Rabbit on Friday.

Joseph Wharton, who resides on the Sudbury farm about 3 miles north of Newark, had a narrow escape from death as a result of the bursting of a double-barrel shotgun Friday morning.

Mr. Wharton was hunting on the farm and seeing a rabbit, prepared to fire. Instead of the gun's being discharged the right barrel exploded throwing parts of the gun in every direction. That Mr. Wharton escaped with his life seems a miracle. His right arm was severely burned and bruised while silver money in his pockets was bent and cut. The only part of the gun remaining intact was the left barrel.

Mr. Wharton believes the accident to be due to a too heavy loading of the gun.

COON CLUB.

Enjoyed a Social Session at Warren Long's on Union Street Friday Evening—The Officers

The Coon club of the West End met in their den at Warren Long's place on Union street on Friday night and organized by electing the following officers:

President—Warren Long.
Treasurer—William Spees.
Secretary—F. Sawyer.
Chief Scout—William Brubaker.
Second Scout—Jesse Smith.
High Chambers—Nez Fink and J. Hiser.

The above list constitutes the only original band of coon hunters in Licking county. After the installation of the officers, a banquet of roast coon, corn bread, sweet potatoes and gravy followed. The banquet table extended the entire length of the den and everybody was served until they could eat no more, "because it was all gone." The president then stated the object of the association and declared the charter open until next coon roast. He also appointed Andy Boies judge of all "argification." Andy also made a speech in his own inimitable way, which was enjoyed by all present. The president stated that Sam Buckalo, one of the sub-coons, was the only man in Licking county who could climb the basin with a barrel on his back and not touch it with his hands. After a short session the scouts and high climbers started for the woods after more coon, and were requested to meet at the den next regular meeting night to initiate ten new members into the mysteries of the den, and also to attend the trial of several old members who were to defend themselves of charges preferred by the president and Judge Boies. How it will all end will be told in the next issue of the "Coon Hollow Gazette." Frank Sawyer, secretary.

Detective John T. Norris is in jail at Springfield. Arguments for a new trial will be made Tuesday. Norris was convicted of blackmail.

INSANITY

AFFIDAVIT IS FILED AGAINST EDWIN S. HAND,

Who For Years Was Superintendent of the Licking County Children's Home—Sad Case.

Edwin S. Hand, who five years ago was superintendent of the Licking County Children's Home and who for years made one of the best officers that institution ever had, is now held on an insanity affidavit at Marion, O. This will be shocking news to Mr. Hand's many friends in Newark and Licking county. The following dispatch from Marion tells of the sad case:

Marion, O., Nov. 21—A warrant was issued from the Probate court Friday for the arrest of Edwin S. Hand, superintendent of the Waddell Children's Home, on an affidavit charging that he was insane and a menace to the community. Sheriff Sells, accompanied by two assistants, arrested Hand and placed him in the county jail.

It is related that Mr. Hand armed himself with two revolvers Thursday afternoon and stated that there were two persons he expected "to put out of business." The teachers at the Children's Home and the family of the unfortunate man were badly frightened and steps were taken to have him placed under restraint.

The arrest of Mr. Hand has caused a profound sensation, as he was looked upon as being one of the foremost citizens of the city and county. Mr. Hand came to Marion about three years ago from Newark, where he had been superintendent of the Newark Home for 10 years. Five years ago Mr. Hand was succeeded as superintendent of the Newark Home by Mr. T. M. Ball and nearly three years ago Mr. J. C. Kreig took charge of the Licking County Home.

At 2.30 Saturday afternoon the Advocate received the following special telegram from its Marion, Ohio, correspondent:

The Hand hearing is now in progress and the indications are that Mr. Hand will be discharged from custody. Mrs. Hand, the superintendent's wife, fell from a step ladder ten days ago and fractured two ribs and cut her back on a hook in a closet against which she fell. Today Mrs. Hand has about recovered from her injuries.
